## Why this workshop?

- ✚ We are living in a very competitive world. With his innovative ideas, someone sitting somewhere is changing the way we live, learn and work. Many innovative ideas have resulted in disrupting the market: lowering costs of different items, improving quality of the product(s) and efficiency of business processes. Many established companies have been pushed out of business. Today, sitting at home, it is very much possible for us to plan our travel, book tickets and arrange for our stay anywhere in the world at very competitive prices. Mobile Apps have become the order of the day. We are just a click away from buying things from anywhere in the world. Smart solutions have made life easier and comfortable.
- ✚ Young minds are always buzzing with ideas. Many of these ideas, with some support and guidance, can be made into business ventures. The workshop will help the students to know the different processes of Innovation and Incubation. The students will also get to interact with some young innovators who have converted their ideas into successful business models.

## Objectives

- ✚ Encourage students to innovate by providing a right ecosystem.
- ✚ Encourage students to incubate their innovations in college premises.
- ✚ To identify potential Entrepreneurs among the students and to create a platform for them to emerge as successful entrepreneurs.
- ✚ To identify new business opportunities sector.
- ✚ To network with entrepreneurship development institutes, funding agencies, and other industry / academic institutions to support entrepreneurial initiatives.
- ✚ Establish tie-ups with the industry.
