(MAR) FIRST YEAR Induction Programme – 07.08.2023 Administrative Office & Library Orientation – 08.08.2023 Motor Fitness and Recreational Activities – 08.08.2023
Venue	Pearl Chamber
Objectives	• To familiarise students with the college infrastructure, including the office, library, and other essential services. • To promote physical fitness and recreational activities to support students overall well-being. • To assist students in adapting to the college environment and academic expectations.
Programme in brief	The Student Induction Program marks the formal beginning of the students' journey in college. During this program, students are introduced to the college's mission, values, and academic culture. Students are shown how to access various services, such as course registrations, financial aid, and library resources. The orientation also covers the use of library databases, borrowing procedures, and study spaces, ensuring students can effectively utilize these resources throughout their academic career. Motor Fitness and Recreational activities aims at encouraging students to maintain a healthy lifestyle, reduce stress, and foster camaraderie among peers.
Outcomes	• Students will be able to efficiently utilise college campus resources such as the library and administrative services. • Students will demonstrate an improved level of physical fitness and will have formed initial social connections through recreational activities. • Students will feel more confident in managing their academic responsibilities and engaging in college life.

A Report: Bridge Course for Students of B. Sc. Semester I (2023-24)

Subject: Chemistry

A One-week Bridge Course from 24 - 31st July 2023 was conducted by the Department of Chemistry for the students of B.Sc. 1st Semester to get them acquainted with the University curriculum, infrastructure and available facilities of Department of Chemistry.

Bridge Course for Laboratory was conducted on 24th and 25th by the Dr. Shyam Dafare (Head, Department of Chemistry) along with other faculty members. Do's and Don'ts in the Laboratory, use of laboratory safety procedures, handling of laboratory chemicals, use of apparatus and some equipment were explained, Students were briefed about the available laboratory infrastructure. Demonstration of some basic experiments was also carried out.

No. of students benefitted by Bridge Course for Laboratory: 140

Bridge Course for Theory subjects was also conducted from 24 - 31st July 2023. Dr. Shyam Dafare (Head, Department of Chemistry) and Dr. S. B. Zanje explained atomic structure, periodic table, periodic properties, hybridization and types of bond. They also apprised the students about S, P, D and F block elements. Dr. A. M. Ghatole and Dr. Sangita D. Katre explained IUPAC Nomenclature, Alkanes, Alkenes, Alkynes & Aromatic hydrocarbons, Electronic effects, Bond Fission & Fusion. Dr. Jayalaxmi G. Patil and Ms. Vaishali S. Lonkar gave an account of Electrophiles & Nucleophiles, Types of Organic Reactions, Reaction Intermediates, Stereochemistry, SN^1 & SN^2 . Dr. G. B. Tiwari, Dr. Samina K. Tadavi and Dr. P. B. Gour explained Basics of Thermodynamics, Surface Chemistry, Kinetic Theory of Gases and Gas Laws.

To demystify the University expectations from the students and to provide adequate foundation in the subjects applied, limited and moderate level One Week Bridge Courses mentioned herewith are designed for Semester-I students of B.Sc.(Mathematics) so that they do not face any difficulty comprehending the course contents prescribed in the syllabus.

Course Objectives:

A bridge course for newly admitted students of B.Sc. Mathematics is conducted every year before the commencement of the first semester classes. The main objective of the course is to bridge the gap between subjects studied at school level and subjects they would be studying in Graduation. The syllabus for the course is framed in such a way that they get basic knowledge on the subjects which they would be learning through graduation. Accordingly, the Bridge Course has been prepared with the dual objective of reviewing the studies done by the students in the previous academic year and helping them to learn the curriculum of the present class in this academic year. During the first week after the commencement of the classes, the bridge course curriculum is delivered to the students in various disciplines.

The end of this course, the students will be able to:

1. Understand the basic concepts of complex number
2. Understand the basic definition of matrices, types of matrices
3. Solve equation of higher degree when some roots are known are known to be complex or surd , irrational and rational.
4. Interpret the concepts of divisibility, prime number
5. Understand the idea of derivatives
6. Apply the integration –by-part formula to solve indefinite integrals
7. Explain the concept of differential equations

Snapshots of the Course

The Rise of the Ballad

- ❑ Towards the later part of the 14th century the traditional ballads became an important source of popular entertainment.
- ❑ In many cases, the authorship remained mostly anonymous.
- ❑ The Ballads dealt with love stories, local legends and the feats of local heroes, supernatural happenings or religious stories.
- ❑ Its tone was impersonal and detached.
- ❑ The ballad was written in a meter known as – 'ballad measure' (a four lined stanza with iambic tetra – meter and trimeter respectively, rhyming abcb)
- ❑ Chaucer also played a part in the rise of the Ballad form

- Tragedies of Webster
- Not much is known of Webster's life - even his date of birth is conjecture. What is known is that by 1633, Webster was sufficiently established as a playwright to be working with several well-regarded playwrights in London. Among his collaborators were Thomas Dekker, Thomas Middleton, and Drayton.
- In 1634 and 1635 he wrote, with Thomas Dekker, two satirical comedies, *Westward Ho* and *Northward Ho*. *Westward Ho* was well-received - enough to inspire the writing of an equally satirical reply by Ben Jonson, *Sejanus*. Chapman transferred to *Northward Ho* the First Landing into Chapman's *Heaven* and John Marston called *Eastward Ho*.
- The three playwrights were thrown in jail, because some of the play's anti-Scottish remarks offended the king, giving it even greater notoriety. *Northward Ho* was Dekker and Webster's answer to 1634. Webster was thought to be, at the time, Dekker's junior partner in writing.

Human society has not really advanced in spite of the fact much scientific knowledge around us and in addition to that, we are also gifted with the intelligence for research. That means there is something lacking in the whole process.

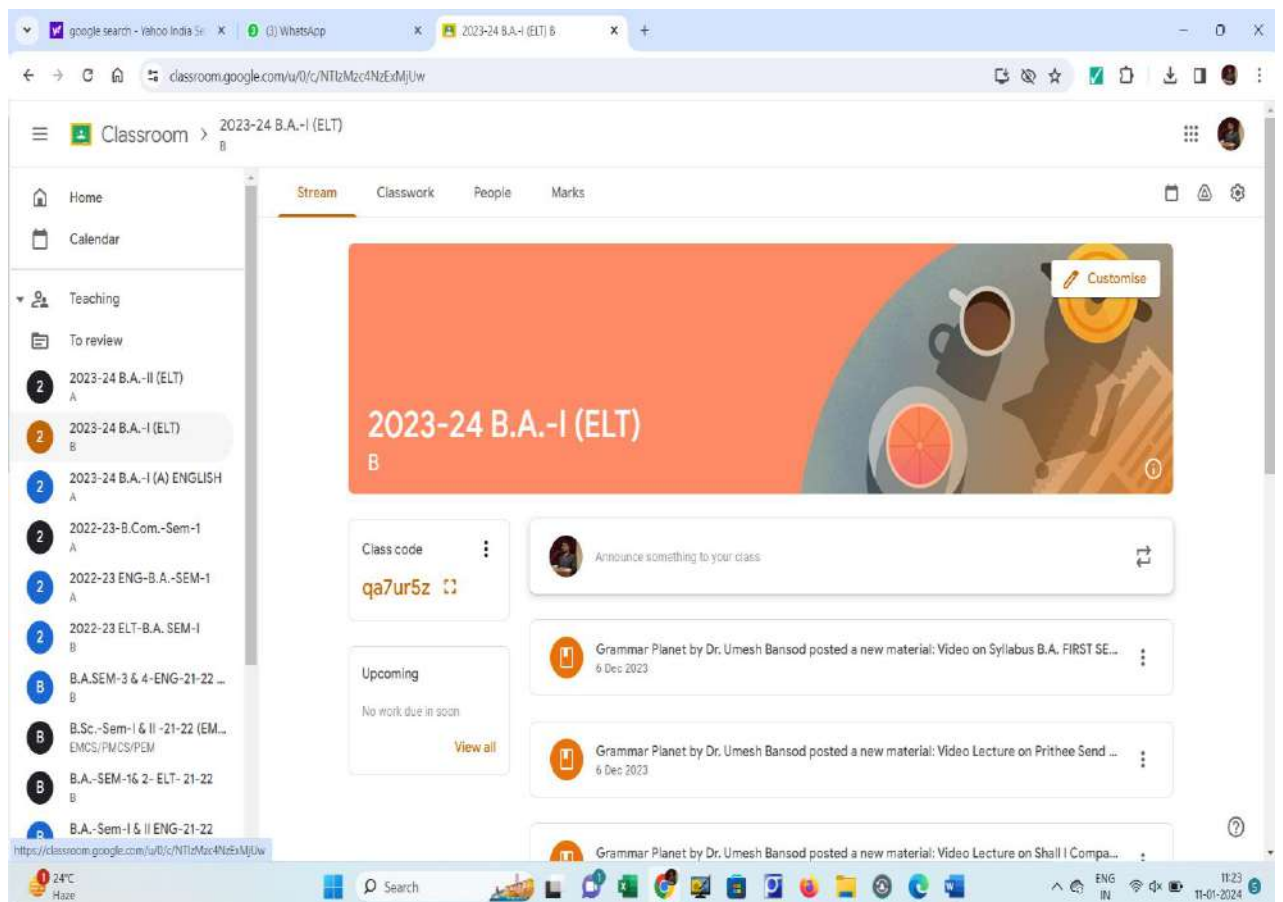

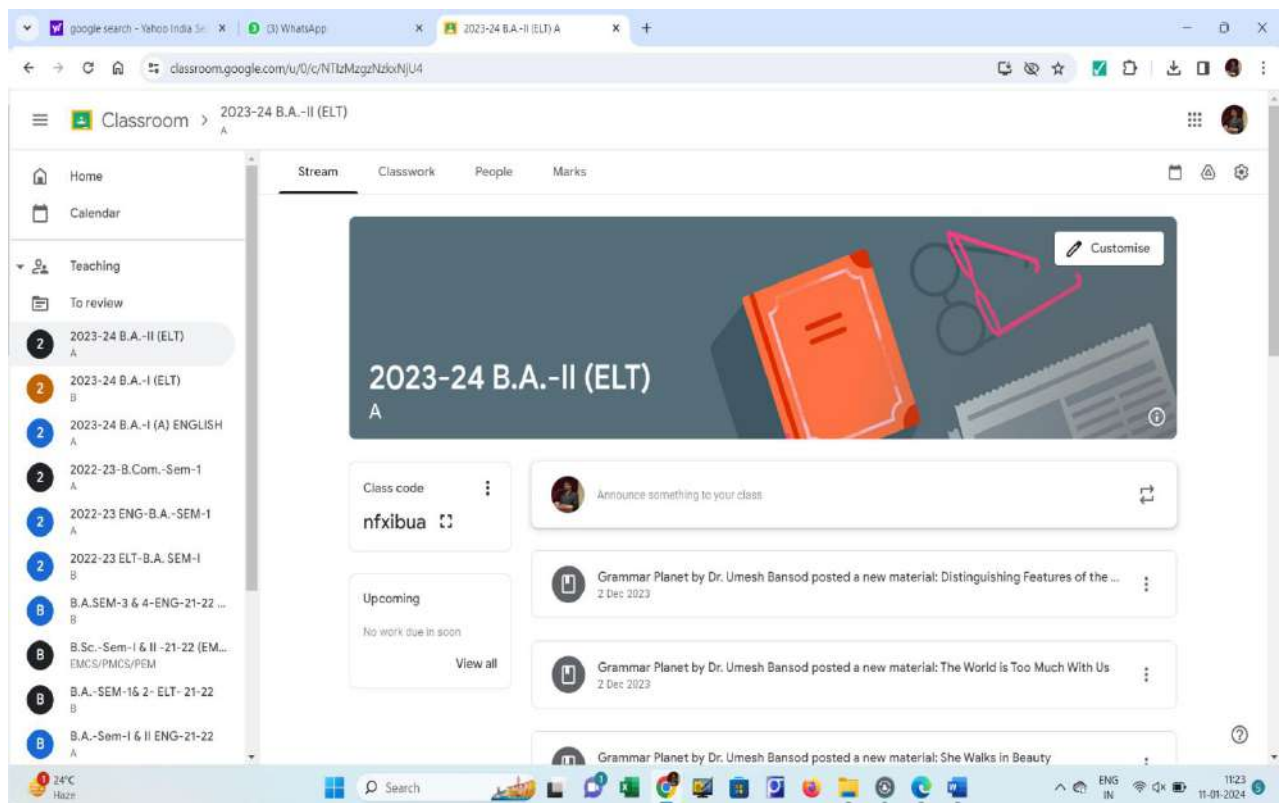

So many discoveries, innovations and the Quantum Theory, Einstein's Theory of Relativity – all these developments have completely changed the way we look at the universe. They combined view of the universe in which we live. Can be understood in context of Corona.

The fundamental reason for this half knowledge keeping aside spirituality which is uttered as a religious thing and is completely taken away from Science. The terms of body, mind and spirit should be taken into consideration. Soul is a very misunderstood word. By Spirituality we mean the knowledge of the soul that is within us.

DEPARTMENT OF ENGLISH ACTIVITY REPORT 2023-24	
Learning Management System (LMS) Used	Google Classroom
Class/Collaborating Institutions	B.Sc. 1 st Year (CBZ/MZ)
Number of Participants	120
Faculty In-charge	Jyoti Sarangpure
Venue	Room No. 116
Objectives	1) To host and track e-learning 2) To make learning resources accessible for remote learners.
Activity in brief	Separate Google Classrooms are made for each and every class. Various study materials like YouTube Videos, e-contents like ebooks, audio books, enotes, PDFs are shared on it to give the students beyond the classroom experience to the students. It is also used to conduct online classes on Google Meet.
Outcomes	1) Increased engagement and interactivity between students and teachers. 2) Abolished the rigidity of conventional classrooms, by expanding learning possibilities.

Human society has not really advanced in spite of the fact much scientific knowledge around us and in addition to that, we are also gifted with the intelligence for research. That means there is something lacking in the whole process.

So many discoveries, innovations and the Quantum Theory, Einstein's Theory of Relativity – all these developments have completely changed the way we look at the universe. They combined view of the universe in which we live. Can be understood in context of Corona.

The fundamental reason for this half knowledge keeping aside spirituality which is uttered as a religious thing and is completely taken away from Science. The terms of body, mind and spirit should be taken into consideration. Soul is a very misunderstood word. By Spirituality we mean the knowledge of the soul that is within us.

Activity Report	
Academic Year	2023-2024
Name of the Activity	Remedial Classes
Date of the Activity	30-09-2023 , 7-12-2023
Organized by	Department of Computer Science, J.M. Patel College, Bhandara
Beneficiaries	37 Students of Computer Science
Objective	✓ To give an basic knowledge of learning. ✓ To introduce the students to the key concepts of Subject. ✓ To enable students how to learn theory, practice programming at his/her own. ✓ To assist the student in overcoming those weaknesses and develop mastery in their subjects.
Brief Report	Remedial classes were conducted for the selected students. They were taught separately and in groups. They can study on their own. The remedial course helps those students to cope up with the learning needs of the students who are slow learners. The remedial classes were conducted the mid of semester, so that students can give their best to clear the final examination. Dr. Pravin Ghosekar, Dr. Sabah Naseem, Mrs. Priyanka Sharma and Mr. Palash Feddewar worked hard to make this remedial classes successful.
Outcome	✓ The goal of remediation is to identify, based on course instructional objectives and evidenced by poor performance on examination(s), areas of weaknesses of material, and, once identified, ✓ To assist pupils in gaining general knowledge that can be applied to all subject areas. ✓ The training may also aid in reducing feelings of inadequacy, which can lead to problems with behavior or motivation.
Organising Committee	1. Dr. Pravin Ghosekar 2. Dr. Sabah Naseem 3. Mr. Palash Feddewar 4. Mrs. Priyanka Sharma

WEEKLY PLANNING

MONTH JULY 2023 + AUG 2023

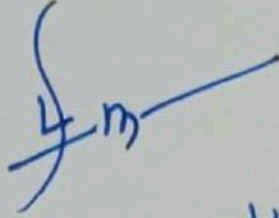

Week (from - to)	Class	Subject / Paper	Plan for the Week
31 July to 5 Aug 2023	B.SC-I (PCM)	Maths-I	→ Introduction to Theory of eq ⁿ .
	B.SC-I (PMCISE)	Maths-I	→ Example of quadratic, cubic & Biquadratic equations.
			→ Basic formula of quadratic cubic & Biquadratic equations.
	B.SC-III (PMCISE)	Maths-II	→ Prove that the product of $\mathbb{N} \times \mathbb{N}$ is countable where $\mathbb{N}$ is the set of natural numbers.
			→ Every subset of a countable set is countable.
			→ Prove that every infinite set is equivalent to one of its proper subsets.
			→ Let A be the set of all eq ⁿ whose elements are the digits 0 & 1. Then set A is uncountable.
			→ Show that the unit interval $[0, 1]$ is uncountable & hence prove that the set of all real numbers is uncountable.
7 Aug to 12 Aug 2023	B.SC-I (PCM)	Maths-I	→ Solve the eq ⁿ $4x^3 + 20x^2 - 23x + 6 = 0$, two of its roots being equal.
			→ Solve the eq ⁿ $24x^3 + 46x^2 + 9x - 9 = 0$, having given that one of its root is double the other.

MONTH AUGUST 2023

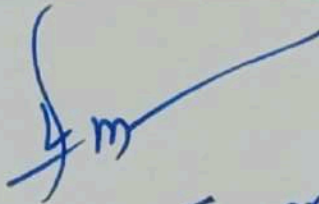

Week (from - to)	Class	Subject / Paper	Plan for the Week
21 Aug to 26 Aug 2023	B.Sc-I (P(M))	Maths-I	→ Symmetric functions → If α, β, γ be the roots of eqⁿ $x^3 + px^2 + qx + r = 0$, find the values of the following function ① $\sum \alpha^2$ ② $\sum \alpha^2 \beta$ ③ $\sum \alpha^3$ ④ $\sum \alpha^2 \beta^2$ ⑤ $\sum \alpha^4$ ⑥ $\sum \frac{1}{\alpha}$ ⑦ $\sum \alpha^2 \beta \gamma$ ⑧ $\sum \alpha^3 \beta$ ⑨ $\sum \alpha^3 \beta^2$ ⑩ $\sum \alpha^3 \beta^3$ ⑪ $\sum \frac{1}{\alpha^2}$ ⑫ $\sum \frac{\beta + \gamma^2}{\beta \gamma}$ ⑬ $(\frac{1}{\alpha^2} - \frac{1}{\beta \gamma})(\frac{1}{\beta^2} - \frac{1}{\gamma \alpha})(\frac{1}{\gamma^2} - \frac{1}{\alpha \beta})$ → If a, b, c, d are the roots of $x^4 + px^3 + qx^2 + rx + s = 0$, find the value of (i) $\sum a^2 bc$ (ii) $\sum a^4$
	B.Sc-I (PM/UE)	Maths-I	
	B.Sc-III (PM/UE)	Maths-II	→ open and closed intervals → open sets, Interior point of E, interior of E, open set → In any metric space X, the empty set $\emptyset$ and the full space X are open set → In any metric space X, each open sphere is an open set. → Let X be a metric space. A subset G of X is open iff it is a union of open sphere. → Theorem of open sets, open sphere.
