J. M. PATEL ARTS, COMMERCE & SCIENCE COLLEGE

BHANDARA - 441904

2023-24

BEST PRACTICE: 1

Title: 'Vigyan Sanskar Shibir' to create scientific temperament among the school students.

Goals: 1) Encourage logical thinking, reasoning, and the scientific temperament among students. 2) Encourage students to investigate novel ideas and concepts by instilling in them a spirit of inventiveness and imagination. 3) Use hands-on experiments and demonstrations to make learning science engaging. 4) Integrate science with ethical and cultural principles to create whole people who have a socially conscious mindset. 5) Educate students on the latest scientific findings, technology developments, and practical uses.

Context: The College endeavors not only to provide quality education to the students of the college but also believes in sharing its resources and infrastructure for the students and people of the region. One such project that the college has been organizing in association with the Vidarbha Chapter of Vigyan Bharati is the 'Vigyan Sanskar Shibir' for Students of class VII, VIII and IX of different schools in Bhandara District. The project is co-ordinated by the Internal Quality Assurance Cell of the College. The project aims at inculcating a scientific temperament among the school students of the region and at the same time attempting to make the learning of science engaging and enjoyable. The 'Vigyan Sanskar Shibir' has been a big hit with the schools as well as its students. The college throws open its Science laboratories for the school students who enjoy the demonstrations of different experiments that are shown to them. Most importantly they are allowed to do some of these experiments themselves under the guidance of the faculty members.

Practice: The Vidarbha and local chapter of Vigyan Bharati and the Internal Quality Assurance Cell (IQAC) of the college come together to organize the 'Vigyan Sanskar Shibir' somewhere in April in a way that they don't clash with the school exams. The 2024 'Vigyan Sanskar Shibir' was organized jointly by Vigyan Bharati, IQAC of J.M. Patel College, Bhandara and Jaycees Convent, Bhandara from 22nd – 27th April 2024.

The Shibir was inaugurated by the former Assistant Joint Secretary, Nagpur Divisional Board for Secondary & Higher Secondary Education, Shri. Sanjay Ayalwar, at a function organised in Jaycees Convent. Students in the Vigyan Sanskar Shibir were divided in six groups namely (1) C. V. Raman Group (2) J. C. Bose Group (3) Birbal Sahani Group (4) Homi Bhabha Group (5) A. P. J. Abdul Kalam Group (6) Vikram Sarabhai Group. Each day the students visited to different Laboratories of J.M. Patel College, Bhandara and were shown different experiments which was very much enjoyed by all the students. They were all shown the use of different instruments/equipments in these laboratories through different experiments. The students were invited to do these experiments for themselves. A majority of the students had seen most of these instruments in their textbooks only. They were getting to have a feel of these instruments in the company of their classmates which was an enjoyable experience for all of them. The students were taken to the Botany, Zoology and Microbiology Departments of the College. The students were served with refreshments.

A Special session on ‘Robotics’ was organised for students to create an interest in robotics. As robotics is already shaping the world we live in. Today robots are performing surgeries. Industrial robots are now being extensively used in manufacturing. Mr. Shrikant Thakre & Mrs. Pooja Shrikant Thakre explained how robotics is making everyday tasks easier, safer, and more efficient. Guest lectures were also organized for the students on ‘Why should we know microbes, Use of Mobile and Cyber Crime, Pollination Techniques used for Medicines, Nanotechnology in Medical Science etc.

Evidences of success: ‘Vigyan Sanskar Shibir’ has been a great hit among the school students of the region. Some of the students attending the Vigyan Sanskar Shibir have already started showcasing their understanding of the basic concepts and imagination by participating in the different school level science project competitions. The hands-on experiments have been a source of great attraction for the school students. There has been a request from more schools to accommodate their students in the Vigyan Sanskar Shibir. 122 students from 17 schools of the region attended the ‘Vigyan Sanskar Shibir’.

Session	Name of the Programme	Date	Number of Participating School	Number of School Students
1	Vigyan Sanskar Shibir 2023-24	22 nd to 27 th April 2024	17	122

Problems Encountered and Resources Required: One of the major problems faced in this Vigyan Sanskar Shibir is the diverse background of the schools and students. The students coming from the schools located in the nearby villages initially find it difficult to mix with the students of the city. But, by the end of the first day they end up making new friends from different schools. The activities are so planned that they have to participate and collaborate with students coming from different schools. There are no major problems related to resources.

BEST PRACTICE: 2

Title: Fostering excellence among students through Sports.

Goal: 1) Tap the students talent in sports and groom them. 2) Identify and nurture students with exceptional athletic potential to maximize their achievements. 3) Cultivate values such as discipline, teamwork, and sportsmanship in students. 4) Inspire a lasting passion for sports and contribute to students' holistic development.

Context: Many students admitted to the college are from a rural and financially disadvantaged background. But, they possess remarkable talent and potential. In addition to its excellent academic infrastructure, the college has a very good sports infrastructure. There are two full time Directors of Physical Education. The college has facilities for outdoor games such as football, cricket, hockey, kabaddi, handball, Rugby, Floorball, Ball – badminton etc. And indoor games as well. At the very beginning of the session, the Physical Education Department of the college organizes different events to identify students who had an inclination and talent for sports. As a special case, students who have performed well in the school level competitions are given admission in the college on the recommendation of their school games teacher. After identifying their talent, the college organizes coaching camps to expose them to different sports and identify their interest in different games. This helps in discovering and grooming students in multiple sports and channelizing their career aspirations.

Practice: Promotion of sports and games has always been a cornerstone of our institution's approach to students development. To cultivate an interest in sports among the incoming students, the college organizes motor fitness and recreational activities as a part of its induction program. Throughout the academic year, sports activities supplement the academic curriculum. After the talent of the students is identified, they are put through coaching camps and under the care of the senior students. The college provides excellent infrastructure and support in various ways, ensuring that the students have the resources they need. The college recognizes the significant impact of sports in fostering positive self-esteem, confidence, and social skills. For specialized coaching, coaches are invited from different federations. Bhandara being situated on the banks of the river Wainganga offers an ideal location for the practicing of Kayaking and Canoeing. Because of its excellent relations with the District Sports Office and local chapter of the Kayaking and Canoeing Federations, the students are allowed to use their facilities for the sports. All the efforts have led to students achieving notable success at inter-collegiate, university, state, and national levels. Additionally, the college provides financial support to students to facilitate their participation in sporting activities, ensuring that they have the necessary resources to pursue their sporting goals. The Annual Expenditure for

inter-collegiate tournaments and selection trials of Games & Sports incurred by J.M. Patel Arts, Commerce & Science College, Bhandara for the Academic session 2022-23 was Rs. 1,89,705/- (Rupees One Lakh Eighty-Nine Thousand Seven Hundred and Five Only) and in Academic Session 2023-24 was Rs. 1,88,630/- (Rupees One Lakh Eighty-Eight Thousand Six Hundred Thirty Only).

Evidence of success: This nurturing of the students has led to the college winning 4 inter-collegiate championships in 2022-23 and 5 university championships in 2023-24 at the university level. In addition, the college won the second position in the inter-collegiate 15-A Side Rugby womens tournament and third position in three events. In addition to the team honours, Mr. Suyog Jambhulkar won the Gold Medal in the Ash-te-do Akhada while Mr. Karan Bashine, Mr. Saurabh Dhumankhede and Mr. Jay Bhoyar won Silver Medal in 20 km Walking, Wrestling and Fencing respectively at the university Championships. Ku. Suhani Kangale was a member of the Silver Medal winning University team in the 200 meters inter-university Kayaking and Caneing championship held at Roopnagar Punjabi University, Patiala. Similarly, Mr. Akash Ukey was a member of the Bronze Medal winning University team at inter-university Kayaking and Caneing championship. The success of the students in sports has rubbed on to their professional achievements also. Many of these students have joined the Maharashtra Police. Some of them are working as coaches in different schools in an around Bhandara.

Problems Encountered and Resources Required: The teachers have to make a lot of efforts to convince the parents to allow the girls to go to different places for participating in different tournaments. A majority of the students come from financially challenged background. Getting a good diet to complement their effort on the field is a challenge for most of them. Some students don't have the resources to buy good quality shoes, kits and equipments for their sports. The college tries its best to help them with the resources.
